

# Evogen Professional General Purpose Sanitiser

- A unique eco-benign<sup>®</sup> sanitiser containing a proprietary mixture of natural antimicrobial active ingredients to offer an innovative way of sanitising and cleaning a wide variety of hard surfaces.

## ➤ Overview

Evogen Professional General Purpose Sanitiser is a concentrated, natural active based sanitiser for dual-action cleaning and disinfection of all hard surfaces including food preparation areas.

The active substances are natural and biodegradable.

**Anti-viral:** Independent testing has shown that this product is effective against all enveloped viruses as defined in EN 14476:2013 + A2:2019 Annex A, including all coronaviruses and SARS-CoV-2 (the virus which causes COVID-19).

**Anti-bacterial:** Kills 99.999% of bacteria according to EN1276 and EN13697.

Designed specifically for use in commercial, residential, institutional and industrial applications to provide a safe, efficient and eco-benign<sup>®</sup> way of cleaning and sanitising hard surfaces.

- Evogen Professional General Purpose Sanitiser is supplied as a dilutable concentrate packaged in 5 litre containers, packed in cases of 2 x 5 litres and in 500ml containers packaged in cases of 6 x 500ml

- For anti-bacterial efficacy, to create the ready-to-use product dilute in water at a rate of 1 part concentrate to 39 parts water (e.g. administer a 12.5ml dose of concentrate with a pelican pump into a 500ml trigger spray bottle and fill with water). Remove gross soiling before sanitisation. Spray onto surface, after 5 minutes rinse if required or wipe clean using a microfiber cloth

- For anti-viral efficacy, to create the ready-to-use product dilute in water at a rate of 1 part concentrate to 9 parts water (e.g. administer 50ml dose using a pelican pump into 500ml trigger spray bottle and fill with water). Remove visible dirt using this product. For sanitisation, spray onto surface, after 5 minutes rinse with clean water or wipe using a clean microfiber cloth

## Application areas

- » Suitable for use on all types of hard surfaces, including surfaces in contact with food
  - » Countertops
  - » Tables
  - » Tiles
  - » Floors
- » Any frequently touched surfaces or areas within the home, office or other workplace
  - » Sinks
  - » Taps

# Evogen Professional General Purpose Sanitiser

## Features and benefits

- » Great return on investment: 1 x 5 litre bottle of General Purpose Sanitiser concentrate will make up to 200 x 500ml trigger sprays of ready to use anti- bacterial product
- » The diluted 'ready to use' anti-bacterial product requires no hazard labelling, reducing requirement for PPE, COSHH and training
- » Superior fully formulated product: produces high performance cleaning and disinfection of all types of hard surfaces including food preparation areas
- » Contains natural anti-microbial active ingredients that are found in many foods
- » The product itself has been tested independently using EN 14476:2013 + A2:2019 Annex A, specifically for enveloped viruses, including all coronaviruses and SARS-CoV-2 (the virus which causes COVID-19)
- » According to EN 1276:2019 (a Phase 2, Step 1 suspension test), Evogen Professional General Purpose Sanitiser Concentrate possesses bactericidal activity at concentration of 2.5% v/v after 5 minutes under dirty conditions as defined in the test and against all the specified test bacteria, *Pseudomonas aeruginosa*, *Escherichia coli*, *Staphylococcus aureus* and *Enterococcus hirae*
- » According to EN 13787:2015 (a Phase 2, Step 2 carrier test), Evogen Professional General Purpose Sanitiser Concentrate possess bactericidal activity at a concentration of 20% v/v as tested after 5 minutes at 20°C under clean conditions as defined in the test against *Pseudomonas aeruginosa*, *Escherichia coli*, *Staphylococcus aureus*, and *Enterococcus hirae*
- » Ideally suited to kitchen and food preparation surfaces
- » Readily biodegradable, low toxicity, eco-benign® formulae. Minimises environmental impact
- » Contains no quaternary ammonium salts or chlorine compounds
- » Manufactured in accordance with recognised international standards, ISO 9001 and ISO 14001, ensures consistent quality of product

## What is eco-benign®?

Our products are formulated with superior chemical technologies combined with specialised *Bacillus* cultures, to have a gentle or harmless effect on the environment when an introduction is made through application or disposal.
